WORK EXPERIENCE

PODCAST HOST

AUG 2019 - Present | ZING! WITH ANABEL PRINCE

A longtime lover of podcasts, I developed a personal goal to start my own in 2019. I launched my podcast, *Zing! with Anabel Prince*, in August 2019 and release biweekly episodes. I conceptualize, brainstorm, record, edit, market, design, and distribute the materials for the podcast independently. In addition, I manage an Instagram page for the show that has received 100+ weekly views and engagements.

COMMUNICATIONS MANAGER

JUNE 2019 - JUNE 2020 | PROJECT MONARCH HEALTH | Athens, GA

I produced, filmed, edited, and distributed instructional videos for Project Monarch Health, a citizen based science research project at UGA. In addition, I created weekly Facebook and Instagram posts aimed towards increasing involvement and increasing donations. In the first month of my involvement, PMH saw a 40% spike in likes and interactions on Facebook.

TELEVISION EDITOR

FEB 2020 - APR 2020 | MXDWN.COM | Los Angeles, CA (Remote)

After three months of working as a Movie News Writer for MXDWN, I was promoted to Television editor. I managed and communicated directly with a team of 5-10 writers. In addition to editing all articles posted to the site (averaging 50 / week), I also wrote five stories each week based in television news and managed the social media channels.

MOVIE NEWS WRITER

OCT 2019 - FEB 2020 | MXDWN.COM | Los Angeles, CA (Remote)

During my time at MXDWN Movies, I wrote over 80 published articles focusing on breaking film news. I communicated remotely with editors to coordinate film news content three times per week, publishing six weekly articles. I independently researched, wrote, and conceptualized all of my stories for the site.

WRITING INTERN

MAY 2019 - NOV 2019 | VISIONARY ARTISTRY MAGAZINE | ATLANTA, GA

At my time with VA Mag, I developed stories based in lifestyle, fashion, music, and art for weekly publication. I communicated with my editor remotely to pitch my own stories on those in the industry I had noticed were emerging, based on my awareness of the media environment. In my six months writing weekly stories, I worked to publish over fifteen articles.
